

# Seminars

## Animal Ecology, Morphology & Biodiversity

April 2009 – Kolenmuseum 00.04 @ 16h

Friday 3 APRIL

### **Combined effects of a pesticide and predator stress on water boatmen**

*Drs Hendrik Trekels* (Lab Aquatic Ecology & Evolutionary Biology, KULeuven)

Friday 10 APRIL

### **Rapid genome invasion within the European water frog complex**

*Drs Griet Holsbeek* (Lab of Animal Diversity & Systematics, KULeuven)

Friday 17 APRIL

### **Between plants & herbivores: The inter-play between waterfowl and water plants**

*Prof dr Marcel Klaassen* (NIOO-KNAW, Centre for Limnology, The Netherlands)

PhD course G0A78A

Friday 24 APRIL

### **The role of kinship and coercion in resolving conflicts in wasp societies**

*Drs Wim Bonckaert* (Lab of Entomology, KULeuven)

Wednesday 29 APRIL (Room CPR 02.23)

### **Thermal adaptation in butterflies: patterns, significance and mechanisms**

*Dr. Isabell Karl* (Greifswald University, Germany)
