

Extra Seminars
Animal Ecology, Morphology & Biodiversity
July 2009

Wednesday 1 JULY – 16h Kolenmuseum 00.04

Diversity of *Macrogryodactylus spp.* (Monogenea: Gyrodactylidae) across Africa: molecular and morphological comparisons

Drs Maxwell Barson (Section Animal Ecology & Systematics, KULeuven)

Thursday 2 JULY – 14h (!) MTC Kleine aula (00.15)

Sea (in)sight – From phylogeographic insights to visual local adaptation in marine gobies

PhD defense Maarten Larmuseau (Laboratory of Animal Diversity & Systematics, KULeuven)

Friday 3 JULY – 15h (!) Hogenheuvvelcollege, Audit. Van der Eecken (02.28)

Population genetic and ecological implications of dormant egg banks in temporary aquatic habitats

PhD defense Ann Hulsmans (Lab. Aquatic Ecology & Evolutionary Biology, KULeuven)
